

PUT IN YOUR
CONTACTS
PERMANENTLY.

You're looking at a beautifully clear alternative to glasses, contacts, and LASIK surgery.

Implantable Collamer Lenses (ICL) are now approved by the FDA after 6 years of clinical studies.

This new technology can relieve nearsightedness with a 15-minute procedure.

Drs. Fine, Hoffman & Packer, right here in Eugene, are among the few doctors in America able to offer ICL with the benefit of 6 years' experience—because many of the clinical trials were conducted in our offices.

To learn more, visit our web site. Or call for a consultation.

You'll be seen by the same fine doctors who helped clear this procedure in the first place.
