

DO YOU HAVE CATARACTS?

ARE YOU BOTHERED BY GLARE OR
ONCOMING HEADLIGHTS?

DO YOU HAVE DIFFICULTY READING SMALL
PRINT, STREET SIGNS OR CAPTIONS ON TV?

We are conducting a research study to
evaluate the safety and effectiveness of a
new investigational intraocular lens.

You may be eligible to participate if you:

- *Are at least 50 years old; and*
- *Have a cataract needing surgery; and*
- *Do not have any serious eye disease; and*
- *Are not taking medicine for diabetes; and*
- *Have not had previous surgery in that eye*
